

PurKlenz[®]
Topical Antiseptic Skin Cleanser
NDC 49436-291-01

Recommended Skin Cleansing Protocol for Body Piercing

NOTE: Do not use PurKlenz inside the mouth, directly on the tongue, in the eyes, or around the eye lid & eye lash area. PurKlenz is safe to use on lips, eyebrows and genitals. Do not use PurKlenz if the presence of a disease or physical condition including, but not limited to, skin rash, infection or allergic reaction makes it impossible or undesirable to treat a particular client in the usual manner. Do not use PurKlenz for tongue piercings

Ensure that products used in conjunction with PurKlenz, PurTect & PurSan do not contain PCMX (Chloroxylenol), for example Dettol, Green Soap or Provon.

1. Wash Hands and put on clean gloves.
 2. Dispense PurKlenz onto a sterile gauze.
NOTE: 1 full pump equals 4cc (0.135 ounce) of liquid.
 3. Fold in half and gently rub both sides together to create a foam.
 4. Unfold gauze then clean skin by starting in the center and wiping outward with a consistent circular motion. Use gentle but firm friction.
 5. Use opposite side of the gauze to repeat the same motion. This should not be an attempt to remove PurKlenz from the skin.
 6. Repeat steps 2 to 5.
 7. Allow PurKlenz to sit on the skin for a minimum of 30 seconds.
 8. Remove gloves and put on clean gloves.
 9. With a new sterile gauze, remove PurKlenz from the skin starting in the center and wiping out ward with a consistent circular motion. Use gentle but firm friction.
- Note: Repeat step 9 if necessary to make sure all PurKlenz is removed from the area to be pierced, otherwise skin may remain slick.
10. Client's skin is now prepared. Follow studio procedures for the piercing.

Questions or Comments please contact PurKlenz or your Distributor.
