

PurTect®
Topical Ointment & Skin Protectant

Recommended Protocol for Tattoo Aftercare

NOTE: Do not use PurTect inside the mouth, directly on the tongue, in the eyes, or around the eye lid & eye lash area. PurTect is safe to use on lips, eyebrows and genitals. Do not use PurTect if the presence of a disease or physical condition including, but not limited to, skin rash, infection or allergic reaction makes it impossible or undesirable to treat a particular client in the usual manner.

Ensure that products used in conjunction with PurKlenz, PurTect & PurSan do not contain PCMX (Chloroxylenol), for example Dettol, Green Soap or Provon.

PurTect is a Skin Protectant & Lubricant designed to reduce redness and irritation, and replace all Vaseline and petroleum type products. PurTect creates a breathable film barrier that will not clog pores.

Client Aftercare:

1. Wash your hands.
2. Gently wash area with a mild unscented aftercare soap such as PurSan®
3. Rinse completely under running water.
4. Pat dry with a clean towel.
5. Apply a small amount of PurTect onto your fingertips.
6. Gently rub PurTect into your tattoo.
7. Wash your hands.
8. Repeat this process of applying PurTect three (3) times a day for several days, according to your Tattoo Artist's instructions for Aftercare.

Questions or Comments please contact PurKlenz or your Distributor.
