

# PurSan® Body Art Aftercare Soap

## Recommended Protocol for Laser Tattoo Removal Aftercare

NOTE: Do not use PurSan inside the mouth, directly on the tongue, in the eyes, or around the eye lid & eye lash area. PurSan is safe to use on lips, eyebrows and genitals. Do not use PurSan if the presence of a disease or physical condition including, but not limited to, skin rash, infection or allergic reaction makes it impossible or undesirable to treat a particular client in the usual manner.

Ensure that products used in conjunction with PurKlenz, PurTect & PurSan do not contain PCMX (Chloroxylenol), for example Dettol, Green Soap or Provon.

1. Apply PurSan to your hands, then wash and rinse thoroughly.
2. Wet the laser removal area to be cleaned.
3. Apply PurSan sparingly to freshly washed hands and gently clean the lasered area.
4. Rinse fully under running water.
5. Gently pat dry with a clean towel.
6. Apply an appropriate colorant-free and unscented aftercare product such as PurTect® to the Lasered area, following the Recommended Protocol for PurTect.
7. Repeat according to your Laser Technician's instructions for Aftercare
